Metformin XR 1 g mane	metformin; extended release noted ...	RxNorm 6809	MedicationSta...
perindopril 4 mg	perindopril	RxNorm 54552	MedicationSta...

HL7 interoperability boundary

This PDF is a readable source document. The exchange artifact is the HL7 FHIR IPS-style document Bundle generated from the coded facts.
The target-country PDF is rendered from that Bundle for human review; it is not the machine-to-machine standard.

Scope and safety

Synthetic data only. No real patient data, no national certification, and no clinical decision-support claim.
